STUDENTS

WINTER SESSION - The academic session consisting of Fall term - the period from September 1 to December 31 - and Winter term - January 1 to April 30.

SPRING SESSION - The academic session extending from early May to mid-June (six weeks).

SUMMER SESSION - The academic session extending from early July to mid-August (six weeks).

ENROLMENT - A full-time student enrolled in a faculty generates one enrolment for that faculty. A faculty's enrolment is the number of students enrolled in that faculty's programs.

FULL-TIME STUDENT - Full-time students are those undergraduates who are assessed full fees and those graduates who are enrolled in a program of studies equivalent in courses and research to not less than three full graduate courses. To be assessed full fees in a term, an undergraduate must be registered in three or more half courses.

PART-TIME STUDENT - Part-time students are all those enrolled in a given term who are registered in fewer than three half courses or their equivalent.

UNDERGRADUATE STUDENT - One who is registered in one or more courses for credit towards any degree other than those awarded by the Faculty of Graduate Studies and Research. An exception is the Special Student, whose course work the University is not bound to credit towards any degree requirements.

GRADUATE STUDENT - One who has been admitted and is enrolled in, a program of study in the Faculty of Graduate Studies and Research.

QUALIFYING GRADUATE STUDENT - A student whose record is not consistent with full admittance into Graduate Studies may be admitted as a Qualifying graduate student. Normally, these are individuals who either hold a three-year bachelor's degree in the appropriate field or hold a four-year degree but are seeking admittance into a completely new field of studies.

VISITING STUDENT - A bona fide student of another university or college who has been permitted to register in one or more courses for transfer of credit to his own institution (which has agreed in advance to such an arrangement).

PROBATIONARY STUDENT - One who has been admitted (or permitted to continue) on a probationary basis, because his previous academic record is either deficient in some respect, below the standard ordinarily required, or difficult to assess. A special category is the Non-matriculated Adult Student: normally at least 24 years of age, who lacks regular admission requirements (one year admission on trial).

SPECIAL STUDENT - One who has been permitted to register in one or more courses, but not officially for credit towards a degree or diploma at this or any other institution.

DEGREE - The title officially conferred upon a student for the successful completion of a given curriculum or program.

DIPLOMA - A certificate awarded a student on successful completion of a program of studies. A diploma is distinct from a degree in that it does not affect the title that the individual may properly assume.

PROVISIONAL CANDIDATE FOR A DOCTOR'S DEGREE - All Ph.D., combined M.D.Ph.D., and Ed. D. students are first admitted as provisional candidates, and reclassified as candidates only when certain requirements relevant to the degree have been met.

CANDIDATE FOR A MASTER'S DEGREE - Category A: one who is a graduate of a 4-year degree program continuing in the same field; equivalent of an honors degree at the University of Alberta. Category B: a graduate of a 4-year degree program (beyond senior matriculation), specializing for the first time but not requiring a qualifying year.

COURSES

COURSE - Organized subject matter in which instruction is offered within a given period of time. Credit towards graduation or certification is given for 'credit' courses; 'Non-credit' courses carry no such committment on the part of the University. Course types are: clinic, lab-lecture, lecture, lecture-lab, laboratory, project, seminar, tutorial, reading, field, practicum, etc.

LEVEL OF A COURSE - The level of academic sophistication at which instruction in an academic specialty may be offered; or, the level of student to which a course is primarily directed. Suggested course levels are:

		Courses numbered
preparatory } lower		100 - 199
junior } lower		200 - 299
upper or senior		300 - 499
Graduate I or Masters		500 - 599
Graduate II or Doctoral		600 and up

NON-STANDARD COURSES - Includes directed individual study, field school, student teaching, clinical, reading, research, conference, drama labs, comprehensive, practical subject, problems, topics, practicum, industrial tour, survey school, practical experience, and outdoor school.

SEMINAR - A course distinguished by relatively small registration and in which group discussion plays an unusually large role in the class experience. Some lecture courses involve seminar periods, where the lecture section may be broken into smaller groups.

LAB - Instructional activity which requires special purpose equipment and/or student experimentation or observation.

NON-LAB - All instructional activity which cannot be classed as laboratory instruction. This includes lecture and seminar classes.

COURSE REGISTRATION - One student registered in one course. A student registered in a term course is counted as one; a student registered in a full year course is counted as two registrations - one for each term. A student enrolls in a faculty or program, and he registers in courses.

WEEKLY STUDENT HOUR - A unit of measure which represents one hour of instruction given to one student during each week for a given term. Weekly student hours are reported by the type of instruction: laboratory or non-laboratory; standard or non-standard. The weekly student hours generated by a course in a given term is the product of the hours per week that the course is taught and the registration in the course. e.g., Suppose a total of 212 students registered in the Winter term offering of Astrology 300, which consisted of 3 hours lecture and 6 hours laboratory instruction per week.

For Astrology 300, then:
WSH (non-lab) = 3 x 212 = 636 WSH
WSH (lab) = 6 x 212 = 1272 WSH

SECTION OF A COURSE - If a course's registration in a given term is broken into two or more sub-groups, which meet at different times and/or different places under the supervision of instructors, then each sub-group constitutes a 'section' of the course. If all 'sections' meet in the same place and time, under the supervision of any number of instructors, then only one 'section' is deemed to exist.

WEEKLY CONTACT HOUR - A unit of measure which represents one hour spent by one faculty member instructing a scheduled class during each week for a given term. Weekly contact hours are reported by the type of instruction: standard or non-standard; laboratory or non-laboratory. The WCH generated by a course in a given term is the product of the hours per week that the course is taught and the number of sections into which the course is divided. e. g., Suppose Astrology 300 in the Winter term consisted of 3 hours of lecture and 6 hours of laboratory instruction. There were two lecture sections (100 and 112 students, respectively) and 12 lab sections.

For Astrology then:
WCH (non-lab) = 2 x 3 = 6 WCH
WCH (lab) = 12 x 6 = 72 WCH

AVERAGE SECTION SIZE - The average class size being supervised by teaching personnel. The calculation is:

$$\text{Average Section Size (Lecture or Lab)} = \frac{\text{Total of Course Registrations}}{\text{Total number of sections}}$$

It is usually meaningless unless the type - lecture, seminar, or lab - is specified.

STAFF

FULL-TIME CONTINUING - Are all those persons who have tenure or are on probationary appointments leading to tenure.

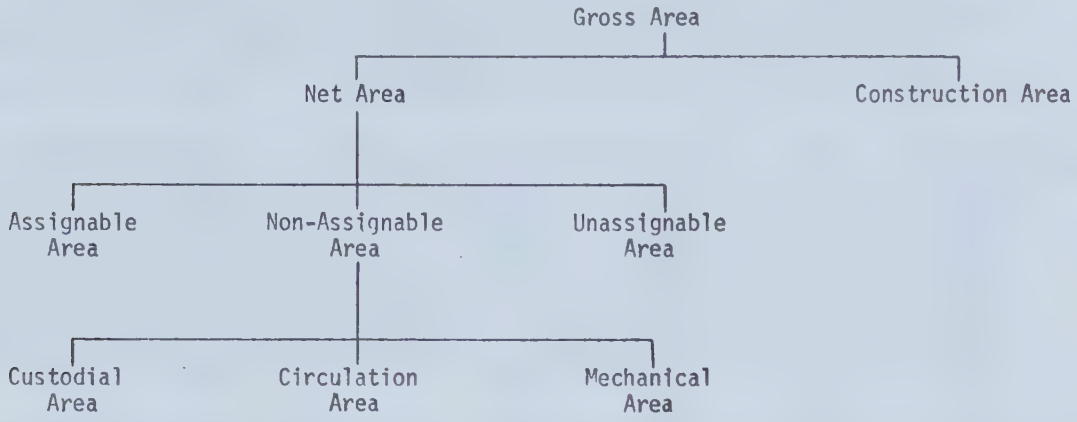
FULL-TIME TEMPORARY - Are those persons who have been appointed on either a sessional or a year basis to do a full-time job.

PART-TIME - Are those persons employed who are not considered "full-time". This could include lecturers, instructors.

FULL-TIME EQUIVALENT OF PART-TIME - Would be determined by the department head. As a general rule, a graduate who receives the maximum stipend will be considered as one-third of a full-time member. Other part-time members would be converted to an FTE basis using a full-time workload as a guide.

GROSS AREA - The sum of the floor areas within the outside weatherface of exterior walls for all stories or areas which have floor surfaces.
- includes: basements (where excavated), attics, garages, enclosed porches, penthouses, mechanical areas, lobbies, mezzanines, balconies, corridors, roofed or canopied loading or shipping platforms and interconnecting tunnels and bridges.
- excludes: open courts and light wells, portions of upper floors eliminated by rooms or lobbies which rise above single floor ceiling height, or floored surfaces with less than 6'6" clear headroom that cannot be properly designated as assignable, mechanical, circulation or custodial areas. Computed by measuring from the outside weatherface of exterior walls, disregarding cornices, pilasters, buttresses, etc. which extend beyond the primary weatherface.

All other categories of building space are contained within gross area, as indicated by the figure:



NET AREA - The sum of individual floor areas included between the interior surfaces of walls and partitions of all rooms and finished enclosed cupboard spaces. Includes custodial, circulation, mechanical, unassignable areas.

ASSIGNABLE AREA - The sum of all areas on all floors assigned or assignable to an occupant. Includes all space which may be put to use in furtherance of the institution's mission. Excludes areas defined as non-assignable, unassignable, and construction areas.

GRADES

The grading system introduced at The University of Alberta in 1966-67 uses the following nine grades:

9
8 Excellent

7
6 Good

5
4 Pass

3

2 Fail
1

A grade of 3 in an individual course will be accepted by a faculty only if warranted by a student's overall academic record. A grade of 4 in a prerequisite course represents the minimum requirement for admission to a senior course.

In courses taken toward an undergraduate degree, the minimum passing grade is 4 unless otherwise specified; in courses taken toward a graduate degree the minimum passing grade is 6.

GRADE POINT AVERAGE (GPA) - The grade point average is calculated using numeric grades and first attempts only, as follows:

1) grade points = student's grade x weight factor of course
2) grade point average = $\frac{\text{sum of grade points}}{\text{sum of weight factors.}}$

FINANCE

FISCAL YEAR - The period for which The University regularly prepares financial statements - April 1st to March 31st of the following year.

OPERATING FUNDS - account for the assets and liabilities involved in the routine operational transactions of the University's principal activities which are not accounted for in either Capital or Trust Funds. Such activities are financed by government grants, student fees and other general revenues. Operating Funds also include appropriated surplus (reserves) and unappropriated surplus.

OPERATING EXPENSE - represents the University's principal activity costs for goods delivered or services rendered, whether paid or unpaid, identifiable with the operations of the period in the categories of teaching and instruction, library, non-sponsored research, plant maintenance, student and public services, administration, and ancillary enterprises. Included in the costs of ancillary enterprises are mortgage principal and interest repayments, provisions for equipment replacements.

CAPITAL FUNDS - account for fixed assets financed by government grants, donations, other capital revenues, borrowed funds, including capital assets initially charged to Operating Funds and Trust Funds. Fixed assets including land, buildings, plant, and buildings under construction are recorded at cost. Furnishings and equipment, including the cost of library books purchased from Operating Funds, are recorded at cost less proceeds of disposal. The cost of original furnishings and equipment provided from Capital Funds or Trust Funds is capitalized whereas the replacement of such furnishings and equipment is charged either to equipment or replacement reserves or directly to Operating Funds. The balance of Capital Funds at the fiscal year end is represented by long-term debt, capitalized expenditures and unexpended funds.

CAPITAL EXPENDITURES - are the costs of goods delivered or services rendered, whether paid or unpaid, which result in the acquisition of or addition to fixed assets as defined in Capital Funds identifiable with the operations of the period.

TRUST FUNDS - account for sponsored research and trusts or special funds of a general or endowed nature. Assets include investments held for endowments and other cash and investments pending expenditure under restricted conditions. Most furnishings and equipment purchased through research grants become the property of The University, therefore their capitalization is reflected in the Capital Funds accounts.

TRUST EXPENDITURES - represent the costs of goods and services on a cash basis, excluding investment purchases, for sponsored research or other special Trust Fund activities identifiable with the operations of the period.

The following table is the Instructional Workload Matrix. It can be read either vertically or horizontally: by reading down one can see the "student mix" or service load in terms of weekly student hours taught; by reading across one can determine the average "student profile" in terms of weekly student hours.
Figures are presented for both terms; both standard and non-standard courses are included.
